UIB ENERGY DOWNSTREAM

Energy companies operate in a high risk world, often in the most hostile environments. There is increasing pressure to deliver low emission products and investment in technological developments while facing the constant challenge of maintaining profitability against the backdrop of volatile oil prices.

Appropriate risk management and secure, cost-effective insurance coverage are key components for stability and success. UIB Energy has developed a worldwide reputation for technical skill and integrity when acting for energy project partners to analyse, design and place comprehensive risk solutions.

ABOUT UIB ENERGY

The UIB Energy Division consists of two separate servicing teams split into downstream / power generation business and upstream business. The UIB Downstream Energy division handles:

- Refining, processing & distribution phases for oil and gas operating risks
- Refineries
- Onshore Pipelines
- Hydroelectric Power
- Utilities
- Mining
- Hydrocarbon Storage Facilities / Terminals
- Petrochemical Plants
- Fertiliser, lube oil plants
- Power Generation
- Renewable Energy

A GLOBAL PARTNER

The size and scale of downstream energy and power generation projects require an insurance broker with global capabilities. UIB Energy, with an international network of offices and strong relationships with insurers worldwide, draws on many years of experience to address complex technical risk issues and develop cost-effective risk and insurance solutions.

To supplement our expertise, our primary technical risk surveys are carried out by Engineering Risk Consultants (ERC), a leading international energy risk surveyor.

COVER FOR DOWNSTREAM ENERGY RISKS

The downstream energy / power generation team's technical knowledge and 'on the ground' local expertise means that UIB has developed innovative risks solutions for energy and power risks throughout the world, including:

- All Risks of Physical Damage
- Natural Catastrophe
- Time Element / Business Interruption / Contingent Business Interruption
- Construction / Minor Works
- Terrorism / Strikes, Riots and Civil Commotion, Malicious Damage
- Named Perils
- Liability / Casualty
- Machinery / Electrical Breakdown
- Transit / Storage
- Seepage and Pollution on a sudden and accidental basis or gradual occurrence

“Personal client service and global risk solutions are at the heart of our offering”
